

2. Install the compiler/IDE Visual Studio Community 2013 with Update 5 or Visual Studio Community 2015
↳ VERY IMPORTANT when installing Visual Studio 2015

The installer for VS 2015 (any edition) no longer installs the C++ compiler by default.

To enable it, select **Custom** in the type of installation and pick **Common Tools for Visual C++ 2015** in **Programming Languages -> Visual C++**
